|-------------------------|--|
| Inhalation              | Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, give artificial respiration. If unconscious, place in the recovery position and obtain immediate medical attention. Give nothing by mouth. |
| Eyes                    | Irrigate copiously with clean water for at least 15 minutes, holding the eyelids apart and seek medical attention.   |
| Skin                    | Remove contaminated clothing. Wash skin thoroughly with soap and water or use a recognized skin cleanser.  |
